## About Us

**Hydrotech Piping Systems (Nig.) Ltd.** We are an indigenous company set to provide top quality services in the main oil & gas industry sector and allied industries with a goal of offering and maintaining standard professional services and sound business practices in all areas of operations.

### Core Business

Our core business are project materials supplies and engineering works, with the highest priority to quick response, quality, safety and timely deliveries of project.

We are determined to bring values to our clientele engineering department and supply chain management (procurement) in meeting-up projects completion schedules, by playing critical bridging role through selected foreign partners, manufacturers and service providers, who have demonstrated a history of high quality materials and trouble free services.

Our main sources include but not limited to; Metalfar, Erne Fittings, Sainest tube, LAME, MEGA, Tenaris, Velan, Gasso, Cartec Sealing Tech. Korea, WOLAR RJ Gasket USA, Melesi, Ulma, Kofco, Benkan ...etc and several oil & gas material stockist in the Middle east, USA and the UK for earliest site delivery.

Our Engineering interphase with Piping Design, Welding & Fabrication, Machining, NDT, and general maintenance services tailored to BOQ.

### Management system

Dealing with increasingly rigid demands for pipes, gasket, fittings and flanges and other industrial materials in Nigeria, Hydrotech made it a concern during the past few years that every acquired material is of high quality and has carefully passed our quality control system. We adhere to regulators requirements such as NCEC approval in Gaskets, Valves, Flanges, Pipe, DPR permits, BVAA UK

and other regulators in Nigeria oil and gas sector. We bid on the most competitive prices along with excellent products and timely deliveries; We also carry out sizeable inventory of consumable items and stocked for customers to meet critical urgent deliveries with no extra cost, especially in gaskets with huge stock in-country.

In order to achieve our objective, it is our policy to effectively and efficiently implore measures in our QMS as follow:

- Regular gathering and monitoring of customers feedback.
- A customer complaints procedure.
- Selection and performance monitoring of suppliers against set criteria.
- Training and development for our employees.
- Regular audit of our internal processes.
- Measurable quality objectives which reflect our business aims Management reviews of audit results, customer feedback and complaints.

### Engineering Services

- Process Design
- Welding / Fabrication,
- NDT, Pipeline Work
- Control Bolting & calibration
- Maintenance

#### VISION:

To deliver specialized services by achieving extraordinary results for our customers globally

#### MISSION:

To be industries first contact of quality products through competitiveness and sound business practices.

#### VALUES:

Integrity, Speed, Reliability
